Writing and stationery – why?

What are the needs or trends that we identified in the category?

Offering more sustainable choices by introducing a new range of products made of recycled materials, such as recycled polyester, recycled aluminium and FSC bamboo.

Why have these products been selected for the launch and how do they answer those needs?

More sustainable choices for the customers.

Bringing more innovation to the writing & stationery assortment.

What value do they bring to the customers?

Fresher looks on sustainable pens with large dedicated areas for branding. This new assortment offers new and interesting features to enrich the experience of writing.

Unix recycled plastic ballpoint pen

107896 & 107897

The Unix ballpoint pen is made from recycled plastic. By choosing this type of pen, we can promote the concept of recycling and encourage individuals and businesses to make more sustainable choices in their everyday lives.

Ink colour: Blue or Black.

Nib size: 1.0 mm.

AVAILABLE COLOURS

RECOMMENDED BRANDING METHOD

POSITION Barrel

Pad print

H 0.5 cm W 6,00 cm

REASON TO LAUNCH

A pen partly made of recycled plastic with a new design. A more sustainable choice with a wide variety of colours, plus a large area on the clip for printing.

MAIN MATERIALS

1. Recycled ABS
- 2.

SPECIAL FEATURES

1. Colour variety
2. 500m writing length

Cyrus recycled aluminium ballpoint pen

107874 & 107875

The Cyrus ballpoint pen is partly made from recycled aluminium. The push button is made of bamboo. Ink colour: Blue or Black. Nib size: 1.00 mm.

AVAILABLE COLOURS

RECOMMENDED BRANDING METHOD

POSITION Body

Engraving

H 0,5 cm W 10,00 cm

REASON TO LAUNCH

Recycled aluminium and bamboo are combined here created balance between sustainability and elegance. The aluminium is good support for engraving for pleasing and subtle branding and the bamboo gives a refreshing highlight to the product.

MAIN MATERIALS

1. Recycled aluminium
- 2.

SPECIAL FEATURES

1. Push button made of bamboo
2. 800m writing length

Darius recycled aluminium ballpoint pen

107876 & 107877

The Darius ballpoint pen is partly made from recycled aluminium. The push button and the bottom part of the barrel is made of bamboo.

Technology – why?

What are the needs or trends that we identified in the category?

Portable, (multi)functional, connectivity and fast charging are key trends. Customers demand sustainable solutions made of recycled materials such as recycled plastic, recycled aluminum, FSC bamboo and solar powered technology.

Why have these products been selected for the launch and how do they answer those needs?

*Shift to Type-C connectivity and increasing demand for power solutions
Supporting the sustainable demand from our customers.*

What value do they bring to the customers?

A balanced selection of sustainable items with improved connectivity, functionality and design.

Soldy 10.000 mAh RCS solar dynamo power bank

124346

An ideal charging companion for outdoor activities. Equipped with a hand-held crank dynamo to generate power manually in case you run out of power and there is no sunlight. Built-in charging cables with Type-C, iOS, USB-A and microUSB connectors.

Houseware – why?

What are the needs or trends that we identified in the category?

Following the steps of the Americano renew, we focus on giving a new face to the MIYO with new colours and innovative materials.

Why have these products been selected for the launch and how do they answer those needs?

The success of the Americano Renew motivated us to develop a version of the MIYO that it could be paired with. The sugarcane-based materials and the new colours give a soft look to the classic item.

What value do they bring to the customers?

Customers can now pair their tumblers with a lunchbox to pack their meals and be on-the-go with style!

MIYO Renew single & double layer lunch box

210181 / 210182

The MIYO Renew is the perfect solution for all on-the-go dining needs. This stylish lunch box includes plastic derived from sugar cane, making it a superb choice for reducing reliance on single-use plastic products. dishwasher safe and microwave safe. It includes a band made from recycled PET to keep everything together.

AVAILABLE COLOURS

RECOMMENDED BRANDING METHOD

POSITION Lid

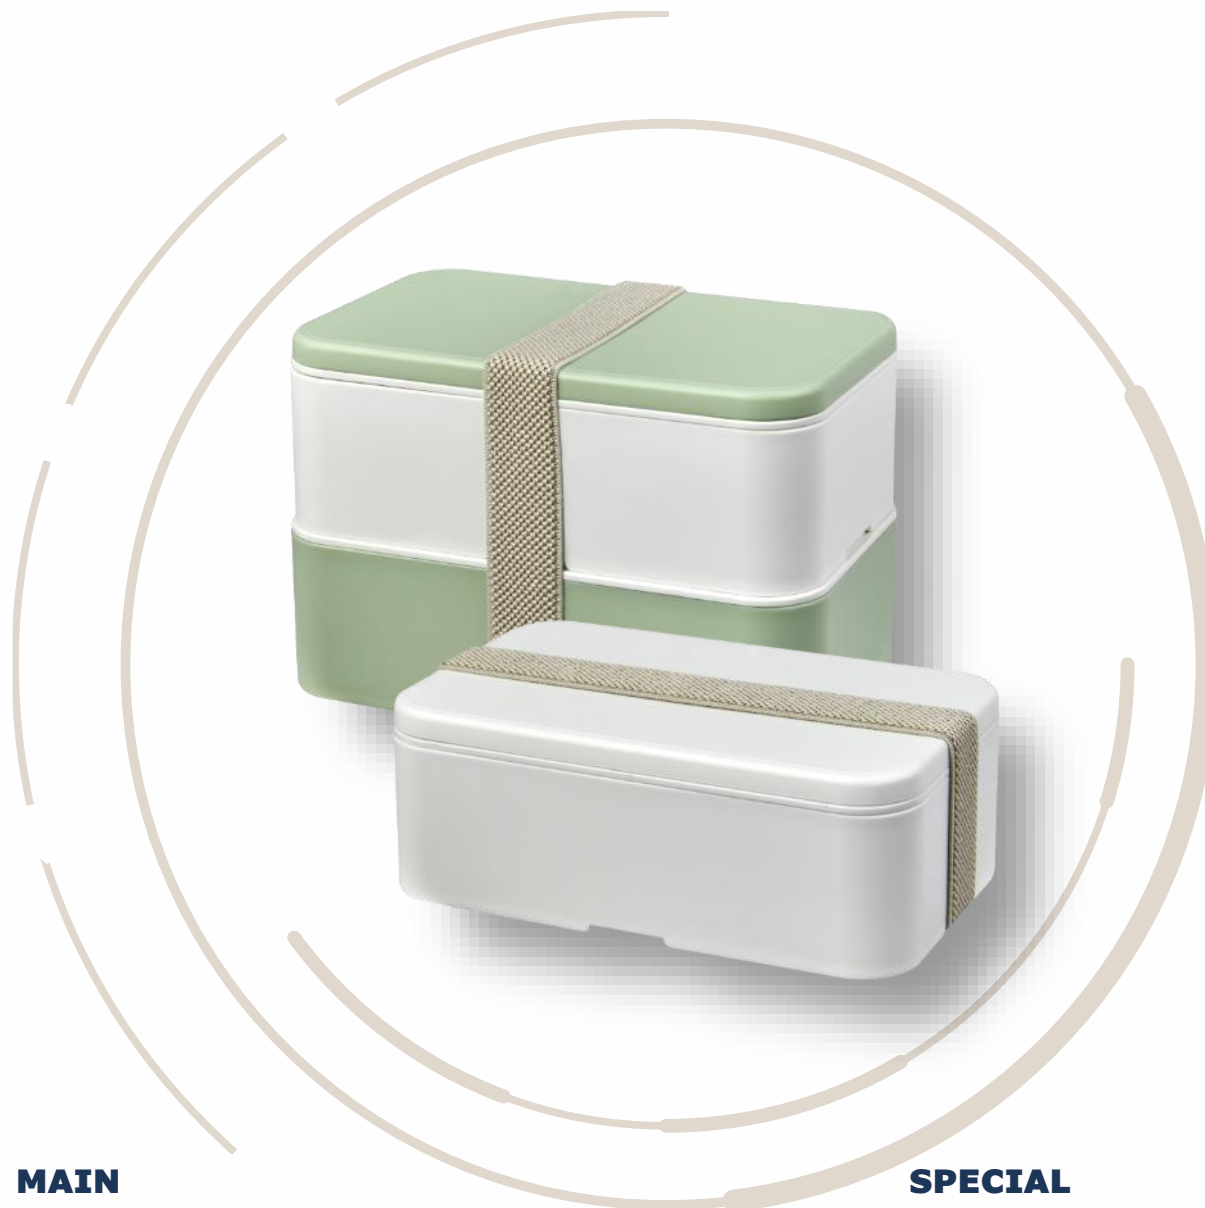

Screenprint

H 8,8 cm *W* 15,8 cm

REASON TO LAUNCH

The MIYO has been a strong launch in the last 18 months. This new version works towards our BHAG of zero virgin plastics from fossil fuels since we are incorporating plastic derived from sugarcane. It's the perfect companion to the Americano Renew tumbler, with its modern colour palette.

MAIN MATERIALS

1. 75% PP Plastic
2. 25% Sugarcane bioplastic

SPECIAL FEATURES

1. Dishwasher and microwave safe
2. Fully recyclable

Drinkware – why?

What are the needs or trends that we identified in the category?

Sustainable materials is becoming the new standard in the Drinkware market.

With a new focus on health and hydration for customers, large capacity bottles are a key trend.

Why have these products been selected for the launch and how do they answer those needs?

Continuing with Recycled Classics, where we are offering our bestselling models in new, sustainable material.

New items feature a capacity of 800ml or more.

What value do they bring to the customers?

Environmentally conscious and versatile products. The large capacity bottles enable a healthier way of life and showcase the new shapes drinkware takes nowadays.

Baseline® Plus 500 ml recycled flip lid sport bottle

210461

Home textiles – why?

What are the needs or trends that we identified in the category?

Wider sizes offer to fit any activities or needs.

Offering more sustainable products where transparency is key.

Why have these products been selected for the launch and how do they answer those needs?

Adding the Aware™ tracer and using recycled pre-sorted waste that determines the color of the yarn, we selected products that not only reduce the demand for new raw materials, but also demonstrate a commitment to a circular life.

What value do they bring to the customers?

Full tracability on materials.

New sizes available.

Bags – why?

What are the needs or trends that we identified in the category?

Creating new essentials by transforming best-selling items into new and improved versions, whether by design or materials chosen.

Why have these products been selected for the launch and how do they answer those needs?

Collections focus on innovative materials and features (Turner, Expedition,...).

The Aware/Undyed collection focuses on the need for traceability throughout the supply chain.

What value do they bring to the customers?

Full traceability on materials.

Models selected with care, to adapt to the users and their every need.

Turner backpack

120705

The Turner backpack is designed with highly durable recycled PU plastic and polyester lining. With a dedicated padded 15.6" laptop compartment, a band inside to store a water bottle, and a zipped pocket for smaller items, and opened and closed with a clasp buckle, this backpack is made to last through time, and also give a lasting impression with its design.
